ABOUT

Computer Engineering student skilled in building scalable and production grade web applications in the stacks of Next.js, TypeScript, Prisma, and Clerk, along with experience in MERN and PERN (with Prisma) stacks. Obsessed with building and breaking cool stuff on the internet, exploring AI SDKs to create intelligent, automation-driven agents, and solving real-world problems. A curious and enthusiastic learner driven by innovation and experimentation.

EDUCATION

Thadomal Shahani Engineering College
B.E - Computer Engineering - CGPA - 9.53

September '24 – Present
Bandra, Maharashtra

Don Bosco School and Junior College
Higher Secondary Certificate (HSC) - Percentage - 93.33%

July '12 – April '24
Boisar, Maharashtra

PROJECTS

Self-Hosted Production Web Platform [↗](#)

December '25

[Next.js](#) — [Linux \(Termux\)](#) — [CI/CD](#) — [Cloudflare Tunnel](#) — [PM2](#) — [Webhooks](#)

- **Built a self-hosted server on an old Android device** using a Linux (Termux) environment, eliminating dependency on traditional cloud infrastructure.
- **Engineered an on-device webhook-driven CI/CD pipeline** that automates the build and deployment process directly from GitHub, achieving near-zero downtime during updates.
- [GitHub Repo](#) [Blog](#)

Neura [↗](#)

September '25

[AI SDK](#) — [Supernemory](#) — [Next.js](#) — [SVIX](#) — [Prisma](#)

- **Neura** – a proactive AI navigation assistant combining real-time mapping with conversational intelligence.
- Built using an event-driven architecture that leverages Supernemory and the Vercel AI SDK to create a persistent, adaptive user experience that tracks and visualizes journey data dynamically.
- [Github Repo](#)

Write It [↗](#)

June '25

[MongoDB](#) — [Express.js](#) — [Gemini API](#) — [Imagekit.io](#)

- **Write It** – a responsive blogging platform using the MERN stack (EJS for templating), featuring bare metal secure user authentication and content management.
- Optimized media delivery using ImageKit and implemented AI-driven image generation via the Gemini API.
- [Github Repo](#)

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, C++, Python, Java, C

Web & Backend: Next.js, React, Vue.js, Node.js, Express, MongoDB, Prisma, Firebase, Neon DB, Clerk

Tools & Platforms: Docker, Git, Github Actions, n8n, Vercel, VSCode

UI & Styling: Tailwind CSS, Shadcn UI, Chakra UI, Bootstrap, GSAP

EXPERIENCE

TSEC Devs Club

April '25

Full Stack Developer

Bandra, India

- Redesigned the official organization landing page using Next.js , improving Core Web Vitals (LCP/FID) by 40 percent and implementing Lottie animations for enhanced user engagement.

ACHIEVEMENTS

- **Ranked 1st** in HSC Class 12 and **2nd** in SSC Class 10 Board Examinations within campus.
- **Ranked 1st** in college and **2nd** at university level in Semester 1 of B.E. Computer Engineering.
- **Self-hosted infrastructure project** gained **1,000+ upvotes** within **24 hours** on r/webdev, maintaining **99% uptime** in production.
